Logo system rules

- Use the full lockup for high-visibility brand placements.
- Use the standalone mark for app icons, favicons and small digital surfaces.
- Keep at least 1x cap-height clear space around the lockup.
- Never stretch, rotate, outline, shadow, or recolor the mark outside approved variants.
- Test every application at actual size before release.

Recommended asset coverage

- Primary / stacked / reversed / monochrome logos
- App icon + favicon set
- Social profile and Open Graph graphics
- Website and campaign banners
- Business card / letterhead / invoice header / email signature
- Brand pattern, icon family and application mockups
- Source SVG + production PNG + usage guide
